

Multiplication and Addition Project

Rubric

Name: _____

<input type="checkbox"/> Menu Draft	_____/20
<input type="checkbox"/> Final Menu	_____/20
<input type="checkbox"/> Ordered for 4 people	_____/20
<input type="checkbox"/> Multiplication	_____/20
<input type="checkbox"/> Addition	_____/20

- ❖ Students will create their own restaurant menu, then order from each other's restaurants for a family of four people.
- ❖ Step 1: Students write a rough draft of their restaurant menu, thinking of four categories, with 4 items each.
- ❖ Suggestion: set price limits between 3-9 dollars.
- ❖ Step 2: After rough draft is reviewed by the teacher, students write out their restaurant menu.
- ❖ Step 3: Students order from each other's menus for a family of four (either assigning partners, or making a big circle and each student orders from the restaurant to their right).
- ❖ Students multiply each item by the number of people eating it, then add the total.
- ❖ Suggestion: no more than 2 people may eat the same item, each person must order one item from each category.
- ❖ Bonus: have students draw their restaurants, or even make 3-D restaurants out of recyclable items.
