# Life on the Nile

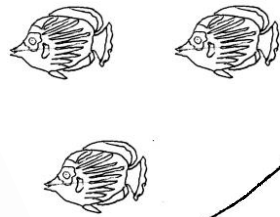

We went to a film of life on the Nile. It had nine facts of the Nile. The Nile is like a long line. The Nile has a big size. There are two branches of the Nile. There are crocs that dine on fish in the Nile. The Nile can shine when the sun hits it. One time, there was a crime on the Nile. There are

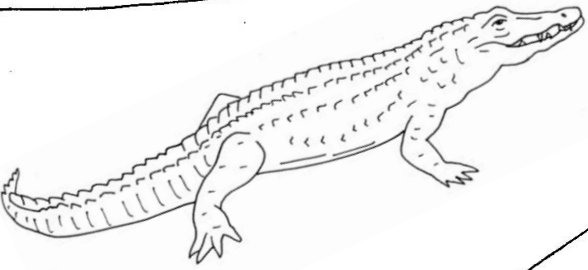

limes by the side of the Nile. When the Nile is dry, the wildlife will get too hot

whine. If it the Nile can

dry up and

wipe off from the land. And that is a bad thing.
