The Man in the Cape

A man in a cape came to visit my class. He did shake his cane to make things come from his hat. A duck came from his cap. Kids did quake when the man did tap the back of his hat and made a mad cat with a mane make a racket from within it. But the cat cannot escape from the cap, so we are safe. The man made a snake come from a can of nuts. I got mad. I hate snakes! But then he did tape it back in the can. Then the man said he must get on a plane and fly back to his shack. The class did plan to bake a snack for the man, but it did not finish and was still on the rack. The man did tap the rack with a rake. The snack became a cake! What fun tricks!
