Let's Visit Strange Places

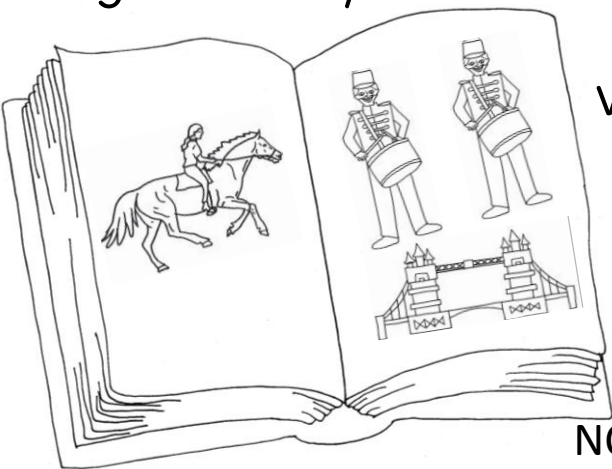

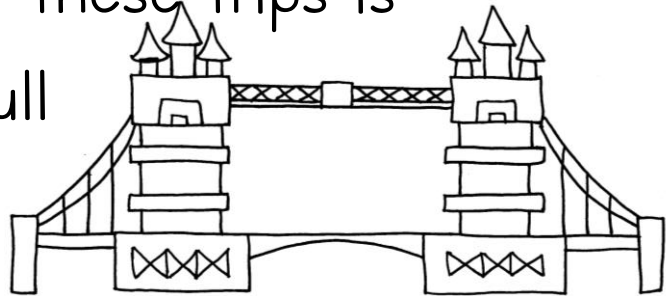

Do you like to visit strange places?

Come on a trip with me. We can go to a nice lodge. We will visit the frigid poles and

plunge into the ice. Try not to cringe when we get close to wild animals that are not in cages.

We will ride on the range while in pants that have fringe. We will stand at the edge of a big bridge. But the cost of these trips is huge. You must use your full wages. But you can still

visit strange places at your age. You just must flip the page.
