I Got Six Trout!

My dad and I went out to fish. The sky was full of clouds. We did count six trout. "Ouch!" I said when I tried to close its mouth. Back at the house our cat found a mouse running on the ground. "Get out!" I cried with a pout. Our cat made a loud sound as it chased the mouse out of the house.. Then our hound chased the cat round and round the south of the house. I helped mom make the trout. We used flour and it baked for one hour. We put a bit of lime on the trout, but it was not sour. Our cat and dog came back to smell the trout and beg for us to drop some on the ground.
