Our Trip to the Ranch

Our class went on a trip to a ranch.

There were cows that said, "Moo!" and pigs that said, "Oink!" It was so noisy. A man did show us how they boil the meat in oil so that it does not spoil. He said, "We must keep the soil moist so crops can grow."

He did show us a pond. "Do not toss a coin in it," he said. "This is where the cows drink. He gave us a choice. We could join him to pick peaches, or we could make noise using our voices to get the sheep to come in. I chose to pick fruit. I did pick from the bushes that were low, but still my back and joints did have a lot of pain.
