Name: _____ Date: _____

Color a star for each time the page is read.

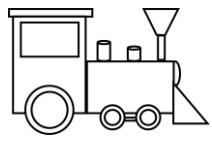

When I Am a Teen

I hope to get a job when I am a teen. I could get a bit of cash. What would I like to do? I could go to the ranch where they grow soy in the soil. They may employ me there. Would I enjoy it? I would have to boil peanuts and beans. I would have to be in the sun. I would have to bend my back and bend my neck. I may find some joy in my job. But I would not like to be there for long hours. I still would like to enjoy my time to rest. I think I am glad I am still a boy. I have much joy because I can stay home and play with my toys.

I will miss this time when I am a teen.
