

On & Off Addition & Subtraction Game

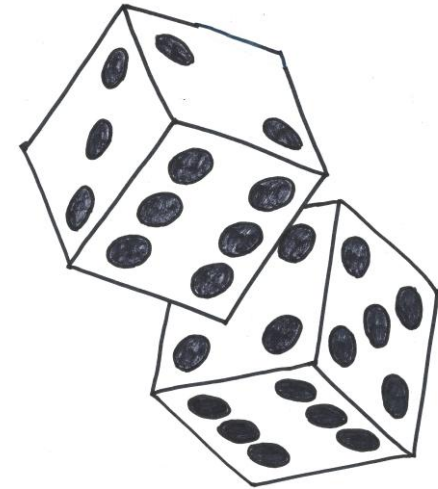

Count how many passengers get on and off the bus.

Count how many people get on and off the elevator.

Count how many birds get on and off the tree branches.

On & Off Addition & Subtraction Game

Play this simple game to help students practice adding and subtracting.

You will need:

- ☐ A coin
- ☐ 10-sided die or a pair of dice
- ☐ 30 counters

Player flips the coin. Heads = add, tails = subtract.

Roll the die to see how many to add or subtract.

Always start with adding.

If subtracting involves getting into negative numbers, roll again.

The counters represent the number of birds in the tree, people on the elevator, and passengers on the bus.
