My Tummy Hurts
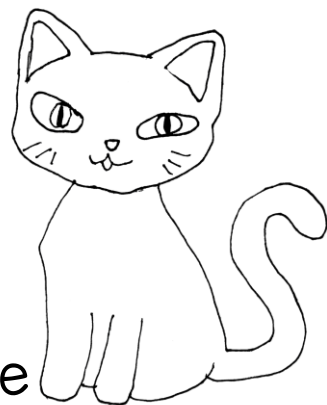

We just had a big meal at Gran's place. As we trot to the car, her cat curves his back for me to pet his fur. I bend down at the curb. He purrs, and then I feel a burn in my throat. All I see is a blur. My tum/my be/gins to curl and turn. What is this hurt that dis/turbs me? I think I ate my turkey too fast. My mom grabs her purse to get a pill. Will I have to see a nurse? But then... Burp! Oh, my! What was that sound that just burst from me? Oh, well! The curse is gone!
