Color a star for each time the page is read.

## Her Perfect Time

My gran sits on her porch when the sun sets. She says it is the perfect time of day. She has a chick that sits on a perch in a cage. Her chick sings songs. She has a fern that hangs in a pot from the roof. As she sits, she tells me tales from her life. She tells of when bad germs made a herd of cows sick. She tells of when

she was a clerk in a store and had a wild perm. She tells of how she did serve her land. She had a stern boss and had to have very strong nerves. That is how she met granddad. They did both serve on the same base.
