

# Around the Block

## Multiplication

**Materials:** die, one game piece per player, 15 game chips per player in 2 colors

**Objective:** To get all game chips onto the board.

**Directions:**

**Begin on Start.**

**Roll die and move that number of spaces.**

**Find the product in the center that answers the multiplication question landed on.**

**Place chip on the product.**

**If you land on a space that has your opponent's chip on it, remove their chip and replace it with your own.**

**If you land on a space that has your own chip on it, place a second chip on top. It is now locked in and can't be replaced with your opponent's chip.**

**Continue going around the board until one player has used all chips.**

**Winner is the first to get all game chips on the board.**
