# Time for Soup!

When it is cold outside, it is time for soup! I like so many kinds of soup. I

like soup with cheese, leeks, peas, beans, meat, and rice.

Soup can heat you up on a cold, cold eve. You should not pour soup without mitts. You could get a wound on your hand. You would not like soup without spices. Four or five spices will do.

You can feed a whole group with a big pot of soup. Many think soup is good for your soul. While I think that is true, I would not try to claim it in court.
