The Dog Fight

We have two dogs. One night, they got in/to a fight. They both did try to get the same thigh bone. It was quite a

sight! It gave our mom a big

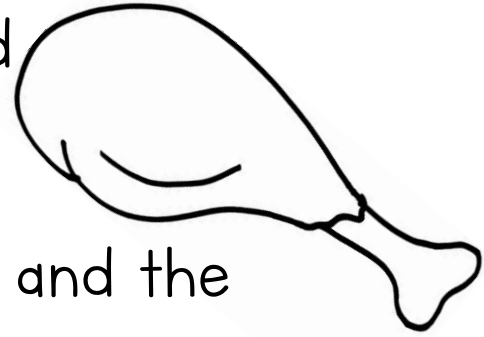

fright. Mom turned off the light.

That got the dogs to stop. She turned it on and it was so bright, they for/got the bone and went

right to their beds. I picked up the bone and held it high. Mom let out a sigh and the dogs howled for the rest of the night.

Next time, we will get two thigh bones.
