

# Clothespin Passing Game

Here is a fun way to help young children develop their fine motor skills. Print these pictures onto thick cardstock (preferably color) and cut them out.

## As a Group (Crossing Midline):

Give each child a clothespin.

Have all children stand in a circle.

Have each child use their clothespin to grab and then pass on to the next person in the circle.

## As a Group (Bilateral Movement):

Give each child two clothespins.

Have all children stand in a circle.

Have each child grab the object with one clothespin, transfer it to their other clothespin, then pass it on to the next child in the circle.

## Alone:

Give a child a basket of clothespins to attach to the object.
