

Ear Model

- ☐ modeling dough
- ☐ toilet paper roll
- ☐ rubber band
- ☐ balloon
- ☐ cotton swab
- ☐ macaroni
- ☐ brad fastener
- ☐ pipe cleaner
- ☐ yarn

Ear Model

- ☐ Outer ear: form from modeling dough
- ☐ Eardrum: cut toilet paper roll in half and overlap on the outer ear
- ☐ Eardrum: cut off narrow part of balloon and use rubberband to expand it over the toilet paper roll
- ☐ Hammer: cut off tip of cotton swab and glue just above the eardrum
- ☐ Anvil: glue the macaroni next to the eardrum
- ☐ Stirrup: open the brad fastener and wrap around a pencil to bend it, then pull the tips backward, and glue with the top touching the macaroni
- ☐ Cochlea: wrap the pipe cleaner in a spiral and glue the tip to the bottom of the brad fastener
- ☐ Auditory Nerve: wrap about a yard of yarn around four fingers, then cut at one end, and glue with ends wrapping around pipe cleaner
